### **Product Details**

Frontier 5706 is a small bench-top multi-function centrifuge ideal for a multitude of spin-down applications.

Frontier 5706 fulfills all the basic needs for liquid separation in life science applications.

Standard Features Include:

- Compatibility with test tubes of various sizes
- Several safety features that protect the operator
- Extremely simple and Intuitive Operation

For technical specification and which rotors and accessories fit the Frontier 5706, see the datasheet under the "MORE" tab.

Once you have found the rotor and accessories you require on the tech sheet you can search for the Camlab product code in the search box at the top of the web page.
